The Belmont county commissioners yesterday afternoon made the best rais of bonds ever made in the county. They determined some time ago to refund \$40,000 of the county indebtedness, and after much deliberation decided to make them \$45 per cent, bonds. There were twenty bidders at the sale yesterday, and a Beston firm took them at a premium of \$2,125. This is at a rate of about 3.55 per cent, per smoun, and the bonds hear the lowest rate of interest of any ever sold. It is a good thing for Belmont county and it indicates an abundance of money and a confidence that has been absent for some time past.
